Jarvisburg, North Carolina 27947

Re: Land Application of gypsum wallboard

Dear Mr. Newbern:

The Division of Waste Management has reviewed the additional fields you submitted to have approved for the land application of gypsum. The following fields may be included provided they meet the same conditions of your land application approval that was issued on April 9, 2008: The fields located at 7250 Caratoke Hwy, Jarvisburg, NC (excluding No soil series) and 6815 Caratoke Hwy, Jarvisburg, NC (excluding No soil series). The soil reports do note some elevated pH levels (6.4) in some of the fields. Reduced rates of application will be needed on those fields to prevent micronutrient deficiencies.

If you have any questions regarding this letter please contact Martin Gallagher at 919-707-8280.

Sincerely,

Michael E. Scott, Section Chief
Solid Waste Section

cc: Ben Barns, Senior Environmental Specialist
Dennis Shackelford, Eastern District Supervisor
